

Admission Application Enrollment Process

Trinity Academy Mission

The mission of Trinity Academy is to provide classical education combining Christ-centered focus with academic excellence. (Proverbs 2:6)

Enrollment Process

The following describes the enrollment process. The full process may involve a time span of four to six weeks.

1

Pre-application – Before submitting an admission application, a family should complete:

Familiarization Visit – Interested families should attend an Open House or schedule a tour with the office in order to learn about the characteristics of classical, Christ-centered education utilizing a hybrid model.

Required Reading – Due to the high level of parent involvement required with a hybrid model of education, parents are strongly encouraged to read the following before the family interview. (All materials are available at www.trinityeagles.org.)

- Christopher A. Perrin M.Div., PH.D., "An Introduction to Classical Education, a Guide for Parents"

2

Application for Admission – Parents desiring to partner with Trinity Academy in the education of their child should submit an application for admission to Trinity Academy after completing the recommended reading and praying over their decision. The application fee is \$50/family and is non-refundable. Complete application information should be mailed or delivered to the address below along with the application fee.

3

Family Interview – Once the application for admission is reviewed, a family interview will be scheduled. The applicant's academic background, testing results, and the family's goals for the child's education within the context of a hybrid model of classical, Christ-centered education will be discussed during this interview. An explanation of the family's financial obligations once enrolled will also occur. Both parents and the student applicant(s) are required to attend this meeting.

4

Placement Testing (if needed) – Trinity Academy will require additional placement testing if the appropriate grade level cannot be determined from the application or family interview. This testing is to ensure that a student is appropriately placed for success and that Trinity Academy is equipped to meet the student's academic needs. This testing may be completed by the parents through a third party or parents may elect to have Trinity Academy complete the evaluation. The cost for Trinity Academy to complete the placement testing is \$75 per student. Trinity Academy may also require applicants for kindergarten to complete readiness screening at no cost.

5

Ready for Enrollment – Families will receive notification about the status of their enrollment after completing the application process. Upon acceptance, Trinity Academy will provide a Welcome Packet with additional information no later than two months prior to the beginning of the pending semester. A student is officially enrolled at Trinity Academy when their application has been approved, the family has made their first tuition payment, and has completed the Enrollment Packet within our FACTS student information system.
